Born in Stockholm, Alfred Nobel was in many respects a typically successful man of his century - a talented inventor who created a (23) ... business, and (24) ... in the process made an enormous fortune. Yet Nobel was exceptional, if not unique, in two respects. First, the geographical spread of his complex business pursuits, which were international in an age of active nationalism, made him (25) ... little about frontiers; second, there was irony in the fact that his fortune (26) ... from the development of explosives for peaceful purposes, which (27) ... our own century are used for both peace and war.
